Consortium Agreements...)

Previous database on Research Grants Day to day IT-tool for ARD

Improvements expected

Optimizing the content

Projects :
proposals/applications
and grants

Consultation and use by
the academics and
scientists conducting
research projects

Integration of existing
procedures in the new
database

Link with SAP

Implementation in the
SAP user profile

PReCIS – conception ARF-ARD – effective since 2013

« Research projects » ?

Activities

- Research
- Services
- Cooperation and development

Funders

- Public funding agencies
- Private – Foundations, Enterprises... (part of)

Dates

- Import of previous ARD data for Research Grants ending after 1/1/2007...

Definition of the scope

Implementation of different user profiles

Administrative department(s)

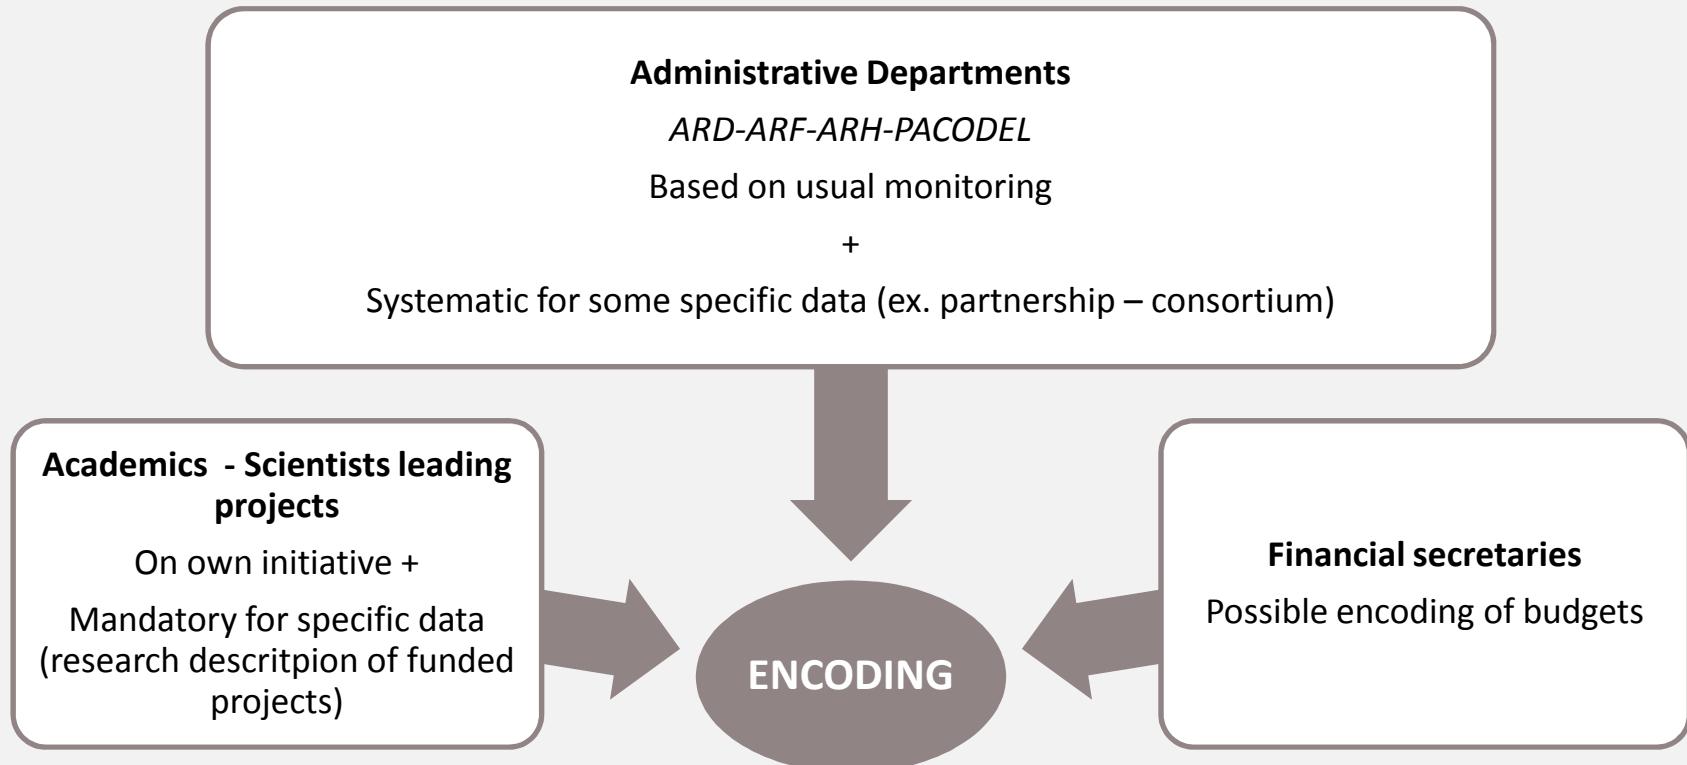

- Access to all projects and all data

Academics – Scientists leading projects

- Access to the project in which they are involved (as coordinator or partners)
- Reading and/or modification access depending on the type of data and of the status of the project.

Financial secretaries

- Access to the projects corresponding with other SAP access
- Reading and/or modification access depending on the type of data and of the status of the project.

REPORTING

RADIUS

- **RADIUS** = Récolte et Analyse des Données et Informations d'Utilité Stratégique
- Information compiled by entities
- Continuous via the ULg intranet - Models of PDF report updated
- For specific procedures. Examples :
Self-evaluation of departments
Strategic plan of faculties

URBI

- Project of the ULG Library Network (**Réseau des Bibliothèques**)
- CV management application (for members of ULg)
- Informations extracted from several official institutional databases
- Institutional CV and Personnal CV
- Modularity of information selected by the user

Titre (FR): Rendre les carrières de recherche européennes plus attractives en développant de nouveaux services et en améliorant les ser
Titre (EN): Making European research careers more attractive by developing new services and enhancing the current services of the EUR

Résumé (FR): Le consortium EURAXESS TOP III comprend des partenaires du presque tous les pays EURAXESS (en tant que bénéficiaires ou partenaires associés, issus de 39 pays), afin d'assurer la couverture la plus large possible ainsi qu'un impact accru. Le projet a été divisé en huit WP. Deux WP sont consacrés à la mise au point, les essais et l'introduction de nouveaux services sur le développement de carrière au sein du réseau EURAXESS. Les WP restants sont consacrés à l'environnement des chercheurs, y compris le contexte institutionnel, à l'intégration des chercheurs

Résumé (EN): The EURAXESS TOP III consortium includes partners from almost all EURAXESS countries (either as beneficiaries or associated partners, from altogether 39 countries), in order to ensure the widest possible coverage as well as increased impact. The project has been divided into eight work packages. Two WPs are devoted to the development, testing and pilot introduction of new services on careerdevelopment within the EURAXESS network.
