Strengths and limitations of the event: some comments received by participants

Strengths of the event and contributions or activities enjoyed by participants:

- What I found interesting and useful is that the accent was on the aims and results that should be achieved and acquired on each class. Content is important but is shouldn't be central thing for teachers and education in general.
- Useful information about the reformation processes and curriculum which is useful for my further occupation.
- It was very useful, informative and at the same time interesting.
- It was illustrated well.
- Professor introduced us in some aspects of reformation that we did not know before.
- I found the event to be highly educational and the information given was relevant. The communication between participants and organisers was professional.
- It is very useful to attend this kind of lecture because we are part of the whole studying system and if we want to advance it we need to be informed and prepared to develop different types of evaluation, studding and thinking.
- I have learned something new and useful.
- Good teaching, new information. Also new level of understanding how things actually work.
- I can now understand better the theme of the event and conversation.
- I enjoyed every part of the presentation so I have nothing to

	<p>contribute.</p> <ul style="list-style-type: none"> • I liked the communication with us. • I enjoyed the atmosphere and everything was professionally done.
<p>Suggestions for the improvement:</p>	<ul style="list-style-type: none"> • Everything was great. • It's good enough. • More involvement of the listeners. • Everything is very clear and well-organised. • No improvements needed. • The event was well organised and there is nothing that can improve it. • More video or audio material could have been used. • I think it was really good. • I can suggest to be more of events like this.
<p>Any further comments</p>	<ul style="list-style-type: none"> • I have nothing to add except that I really enjoyed this training. • The professor is very professional and well-educated and explains things so that everybody understands. • Thank you! • I have to say that the organiser of this event is really professional and has amazing speaking skills. Also he really knows how to emphasize the importance of the topic that he talks about. • The lecturer is very good at speaking about the theme and well prepared.
