Strengths and limitations of the event: some comments received by participants

Strengths of the event and contributions or activities enjoyed by participants:

- I heard a lot of interesting things.
- I enjoyed in a lot of interesting facts.
- The information I heard were great and new to me. It was interesting to learn something new.
- I think that this is a very useful event and I heard a lot of interesting information.
- I was happy to participate on this kind of event perhaps I was planning to mix my programming with biology (genetics) so thank you for organizing this event.
- Everything was great. I like the most informatics part of these event.
- Everything was great. I liked the lecture and I think the knowledge I got will be useful in my further research and learning.
- An inspiring story about cooperation between different fields of science. The lecture showed the importance of multidisciplinary work through an example.
- Dr. Masulovic's personal experience in interdisciplinary projects and his anecdotes were very interesting and engaging.
- Great Lecturer who can strongly motivate students to take higher interest in join research in their respective fields.
- It is very informative bout the real world use of math, programming (science in general) and very interesting. This course helps you understand better why you study the things you do, which gives you

	<p>more motivation to study harder. (PS: great lecturer).</p> <ul style="list-style-type: none"> • The presenting professor was very enthusiastic about the topic. • I enjoyed learning about new methods to tackle complex problems. • It will help me in the future. • I like it. Theme is interesting. • The event illustrated very nicely that in the current time it's not enough to be just skilled at one thing. • It was really useful. The great event. The best teacher. • The organisation was great, event kept my attention.
<p>Suggestions for the improvement:</p>	<ul style="list-style-type: none"> • It could have been longer. • There was nothing to add. I think everything was as it should be. • More seats. • For the time given, the lecture was organised well and I would not add any particular improvements. • The number of people that participated was much higher than expected and the accommodation wasn't appropriate. That should be fixed in the future. • Doesn't need to be improved. • I really enjoyed. I learned so much.
<p>Any further comments</p>	<ul style="list-style-type: none"> • It was very nice. • Everything was great. • Thanks for the knowledge. • The lecture was informative, useful and interesting. • Organisers were very professional.

ADDITIONAL COMMENTS *(to be filled by the local partner)*

- The atmosphere was very satisfactory and motivating for the organization of similar seminars.

Lessons learned

- Since the participants expressed their willingness to participate in similar events we realised that it will be useful and attractive to organise some seminars on similar topics.
