Author:	Dr. Elvana Shtepani
Event Title:	Training of WBC researchers on research methodology
Event Date:	24 May 2017/ 29 May 2017
Event Venue:	Faculty of Foreign Languages/ Faculty of History and Philology
Type of event: (National, international, press conference, promotional event etc.)	National
Short description:	<p>A-two day training on research methodology within activity 3.3 was organized by the University of Tirana. This training was entitled “Creative thinking – from problem to solution” and it was divided into three main presentations. A large number of students showed great interest to be trained on a topic that would provide lots of insight about different ways they can find while preparing their research.</p> <p>During these days all presentations covered topics related to common tools, methods and research methodologies for solving real life problems. After each presentation, participants were given the opportunity to ask questions, discuss and comment on different issues and share their own experience. Apart from the prepared presentations, all presenters complemented them with examples from their own experience as researchers.</p> <p>There were 183 participants from different Faculties of the University of Tirana. The training on research methodology had as its main objective informing a larger audience and many students participated. All participants expressed their interest about trainings of this kind and were eager to learn and share their own thoughts and perspectives.</p>

ADDITIONAL COMMENTS *(to be filled by the local partner)*

Lessons learned

- *these kinds of events and trainings offer lots of opportunities for researchers to develop new strategies and increase opportunities for them*
- *topics treated should be clearly and well prepared with the researchers in mind*
- *organization of group work could also prove beneficial and enable active participation*
- *raising awareness among researchers about important aspects of their research will also help the project achieve its goals*
