Institution:	University of East Sarajevo
Author/s of the deliverable	Jelena Mičić
Status of the document:	Final
Document Version no and date:	v.01, 06/03/2018
Number of Pages	2
Dissemination Level	Internal
Abstract	Report on how the web-site of the University of East Sarajevo has been improved

REPORT ON 3.2. CREATING AND UPDATING OF DATABASES AND WEB SITES FOR BETTER TRANSPARENCY AND INFORMATION FLOW

With intention to raise the level of quality of the University information system, at the beginning of May 2016, University of East Sarajevo started the accelerated development of an integrated web platform. The website of the University of East Sarajevo has been significantly improved. All information on the organizational structure, legal regulations, and activities at the University are published on the website. The web site offers information on the University, the organizational units of the University, history, the way of functioning and the governing bodies of the University. The static and dynamic contents of the site are available in Serbian (in Cyrillic and Latin versions) and in English.

In May 2017, the European Commission awarded the University of East Sarajevo a logo of Excellence in Research, bringing the UES to a group of European universities that have a quality assurance of scientific research and wanting to ensure a quality business environment for their researchers. The HR logo is constantly visible, highlighted on the University's homepage.

The University's participation in international projects is highlighted on the site, and activities related to individual projects are regularly published. On the site, announcements of events and calls for participation in regional and international conferences and scientific meetings, as well as offers of scholarships for the training of students, young researchers and teaching staff, are regularly updated.

Also, all researchers are registered in the University information system and in the students'

survey system. And, all researchers will be registered in the eNIR system, recently developed. For now, there is activity related to enter all research results in this system. Until now, we have 473 researchers registered in the eNIR system, with 5336 publications.

All mentioned improvements contribute to better internal and external communication of the University of East Sarajevo, and intensify visibility of UES.

Project number: 561586-EPP-1-2015-1-RS-EPPKA2-CBHE-JP
