Short description: Promotion of Re@WBC project during the presentation of Responsible Research and Innovation (RRI) in Albania	
University of Vlora "Ismail Qemali" in collaboration with the Center for the Promotion of Science, Belgrade organised the promotion of Re@WBC project during the presentation of Responsible Research and Innovation (RRI) in Albania that took place on 12 October 2016 in Vlora, Albania. The promotion of the project was done in the form of a ppt presentation to an audience made up not only of professors at the University of Vlora "Ismail Qemali" but also of young researchers, former students of this university who are now studying overseas. The presentation focused on a brief introduction of the project and its main goals, the partners participating in it as well as a more detailed look at the work packages and what is intended to be achieved through them by all partners. Participants found this a most interesting and timely project for the implementation of EU concepts in research and research practices in view also of the new law on HE in Albania.
